

North Dakota **Regional Education Association**

NORTH DAKOTA REGIONAL
EDUCATION ASSOCIATION

The mission of NDREA is to support and strengthen education in North Dakota.

WHO

Who are members of the NDREA?

The North Dakota Regional Education Association's (NDREA) primary members are the regional education association (REA)* directors and REA staff members. Other members include REA lead administrators and representatives from other organizations that help to advance the mission.

What does the NDREA do?

The NDREA provides support to strengthen the seven REAs across the state. Through these seven REAs we serve 100% of the state's public schools and over 115,000 public school students, plus over 6,200 students in private schools, Bureau of Indian Education Schools, ND School for the Deaf and ND Youth Correctional Center. We believe through collaboration, a systemic approach, solution-oriented strategies and a focus on continuous improvement we can improve the quality of education across North Dakota.

NDREA members use a systematic approach to effectively share methods and practices that research has found to produce the best performance and results. Members support each other to ensure such practices are modeled in the operation of each respective REA.

WHAT

HOW

How does NDREA support education?

- Identifies and establishes clear standards of quality for professional development/ learning including standards for quality outcomes and processes
- Exercises leadership to plan and implement high-quality programs and services within each REA and statewide
- Capitalizes on new statewide strategic initiative opportunities that will benefit all schools

*A Regional Education Association (REA) is a group of school districts seeking to improve their educational programs and services through cooperation and pooling of resources. There are seven REAs in North Dakota and 99% of all the public school districts in the state are members of an REA. About 99% of all public school students in the state are served by an REA. Each REA offers unique programs and services based on the needs of the region and they strive to offer high-quality programs and services that are delivered in the areas of professional development, technology support, data systems support, school improvement support, and curriculum enrichment. Beginning in 2011, all the REAs began working toward consistent offerings of high-quality programs and services in the areas of professional development, technology support, data systems support, school improvement support, and curriculum enrichment.

Quality Early Childhood Experiences

Programs & Support Examples

NDREA Focus Areas Include:

- Early literacy
- Quality early childhood programs & childcare
- Support for licensed childcare providers & educators

Support for Safe & Healthy Behaviors

Programs & Support Examples

NDREA Focus Areas Include:

- Technical assistance to schools for behavioral health resource coordinators
- Developing Schoolwide Behavior Expectations & implementation with schools
- Promoting a whole-child, whole-family approach to student success

Career Awareness, Exploration, & Development

Programs & Support Examples

NDREA Focus Areas Include:

- Collaboration/connection to Career & Technical Education centers
- Career exploration events for students
